

GREEN HERBACEOUS PLANTS						
what does w or m-w mean?						
d = dry						
m = mesic -between wet and dry (great for a hillside, or rain garden)						
w = wet (great for a wet garden)						
Species	Cultivar	Common Name	Height	Sun/Shade Tolerance	*Water Tolerance	
Acorus	calamus	Sweet Flag	2-4'	Sun to Partial Shade	w	
Aruncus	dioicus	Goat's Beard	3-5'	Sun to Partial Shade	m	
Butomus	umbellatus	Flowering Rush	2-3'	Sun to Partial Shade	w	
Caltha	palustris	Marsh Marigold	12-18"	Partial Shade to Shade	w	
Chelone	lyonii	Turtlehead	1-3'	Sun to Partial Shade	w	
Eupatorium	fistulosum	Joe-Pye Weed	4-5'	Sun to Partial Shade	w-m	
Hibiscus	moscheutos	Rose Mallow	3-6'	Sun	m	
Iris	x	Louisiana Hybrids'	Louisiana Iris	2-4'	Sun to Partial Shade	w
Iris	versicolor	Blue Flag	4-6'	Sun to Partial Shade	w	
Juncus	spp.	Rush	18-24"	Sun to Partial Shade	w	
Juncus	effusa	Common Rush	2-3'	Sun to Partial Shade	w	
Juncus	ensifolius	Dwarf Rush	1'	Sun to Partial Shade	w	
Juncus	glaucus	Blue Rush	2'	Sun to Partial Shade	w	
Lobelia	cardinalis	Cardinal Flower	2-4'	Sun to Partial Shade	w-m	
Phlox	stolonifera	Creeping Phlox	<1'	Sun to Partial Shade	m	
Pontedaria	cordata	Pickereel Rush	2-3'	Sun	w	
Sagittaria	latifolia	Arrowhead	3-4'	Sun to Partial Shade	w	
Sanguisorba	canadensis	Canadian Burnet	4-6'	Sun to Partial Shade	w	
Scirpus		Bullrush	3-4'	Sun	w	
Spartina	pectinata	Aureo-marginata'	Cord Grass	4-8'	Sun to Partial Shade	w-m
